It all started a few years ago when I found some 20 envelopes from the 1930's with different slogan cancellations at a stamp exhibition. Thereafter I found some on eBay which actually came from my old college Franz Krieger. He was the one who sold all his Republic slogans to me and with all this; I wanted to know more about these slogans. I found in the IPPS newsletters listings of Pablo M. Espiridon, which I checked. I also received from Don Peterson his listings he had from Don Pablo and while in the Philippines I received from Rey de Jesus, a well known stamp dealer, a copy of the 1955 AFF yearbook with Don Pablo's slogan cancels and Jesus Cacho's G.I. Postal Slogans incorporated.

After comparing the listings I found differences in the numberings of the slogans and I had others which were not indicated. In corresponding with Don Peterson about all this, he was the one encouraging me to produce a new catalogue and I agreed not thinking how much work would be involved.

I then started to scan all the envelopes and other bits I had into the computer and eliminating the stamps and enhancing the slogans to make a 1:1 representation with a short description whereby Don Pablo's listings were very useful. When I reached the slogans of 1959, I had no information anymore from Pablo Espiridon so I asked around in the Philippines. Jorge Cuyugan from San Fernando, Pampanga was the one who provided me with copies which he obtained from the Philippine Postal Museum on slogan cancels and special cachets issued between 1947 and 1968.

In the last few months I received as well some copies of slogans from Ron Maineri which are also incorporated in this catalogue.

I only can hope that if anybody having slogan cancels or cachets in his/her collection which are not shown in this catalogue, could send me a scan or a copy so it would be a benefit for all collectors of this special field.

Last but not least I have to thank my wife Remie for all the patience she had with me in the last few years and the time she gave me for my hobby.

I intend to publish every year if necessary, amendments with new slogans.

Part I - PHILIPPINE POSTAL SLOGANS

Introduction

Categories of Slogans

The postal slogans of the Philippines, are grouped under the following categories:

1) Official, 2) Semi-Official, 3) Commercial.

1) Postal slogans cancellations as used by the Bureau of Posts, are considered as "Official".

2) Those used by other government departments or bureaus, are designated as "Semi-Official". Under this same category, those used by the U.S.Navy (slogan cancels on Philippine waters) in the prewar days and by the GIs during the early months of the liberation, are designated likewise.

3) Postal slogans used by private firms or individuals, are identified as "Commercial".

Types of Slogans

Used mostly by the Manila Post Office, the "official" postal slogans are identified philatelically under the following types: Doremus, Flags, Straightline, Universal, Boxed and Fancy.

They have been applied by machine and/or by handstamp.

Under the machine slogan cancels, there are the Doremus, Flags, Universal and Boxed. Of the Boxed slogans however, some of them were applied by hand stamp and some by machine.

Under the hand stamp types, there are the Straightline and the Fancy.

Doremus Types

Forerunner of the machine cancellations and slogan machine cancels in the Philippines, is the Doremus. This machine cancel has several types. However, only three types were used by the Manila Post Office. They were introduced in 1904, 1906 and 1908 respectively.

Bearing 16 vertical bars (but most of the cancels show less), the Doremus slogan cancellation is like the keyboard of a piano. Hence, its designation, Doremus (from the musical notes Do, Re Mi). This type of canceling machine was manufactured by the Doremus Canceling Machine Co., Washington, D.C.

Earliest known Doremus slogan cancel in the Philippines was dated "Oct. 15, 1908" legend of its slogan reads: "PHILIPPINE CARNIVAL - MANILA, FEB. 2-9, 1909," all in capital letters in two lines. It was applied in black.

Prior to the use of the Doremus slogan cancel, however, two other types were used by the Manila Post Office. They were both without slogans. One of them was with vertical bars only. It was a plain machine cancel. As to the other type, it was not used as a cancellation but merely as a receiving postmark or "backstamp". Thus it bears the word "RECEIVED", in capital letters in one line.

In so far as Philippine postal history is concerned, the Manila Post Office had therefore used three types of the Doremus-machine cancels.

Flag Types

Next to the Doremus, there came the Flag machine cancellations. As far as collectors are concerned, there are three major types of the flag cancels. They are known as the Ovate, Involute and Spread Star Field. Under these three major types, there are the specific types used in the Philippines by the Manila Post Office:

Spread Star Field, Boxed Slogan, Backstamp, Station Cancel and Exposition Cancel.

The U.S. Navy in Cavite used a special Naval Station Cancel.

Because there are no available records, the exact date as to when the first Flag machine cancel was used in the Philippines is not known. The earliest Flag cancel seen was dated "Oct. 28, 1916" and it is a Spread Star Field. Its motive is an American Flag with 13 stars and seven wavy stripes on the right. In the union it has a staff and a halyard. It was used until 1923.

Bearing a slogan in the field, is the Boxed slogan type. Like the Spread Star Field, it has also a staff and a halyard, plus the usual seven wavy stripes. The earliest date seen of this Flag slogan bears "May 3, 1918". And the legend of the slogan reads: "ARE YOU HELPING - IF NOT, WHY NOT? - BUY A - LIBERTY BOND", all caps in four lines. It was applied in black. The Flag slogan cancels of the Boxed type are known to exist with at least 24 different slogans.

Another specific type of the Flag machine cancels used by the Manila Post Office, was the Backstamp. As its name indicates, it's not a slogan. It was a postal marking used by the Manila Post Offices as a receiving postmark. Stamped on the back of the envelopes, especially on incoming foreign first-class mail, it bears the word "RECEIVED" inscribed in the union of the Flag. Hence its use as a backstamp. Earliest date reported of this type was "Aug. 28, 1919".

All these Flag slogan cancels of the were applied by machine in black and used by the Manila Post Office.

Notwithstanding this, however, one of them was done by handstamp and it was applied in purple. It was used by the Post Office of Capiz, Capiz and the earliest date seen was "Dec. 3, 1925".

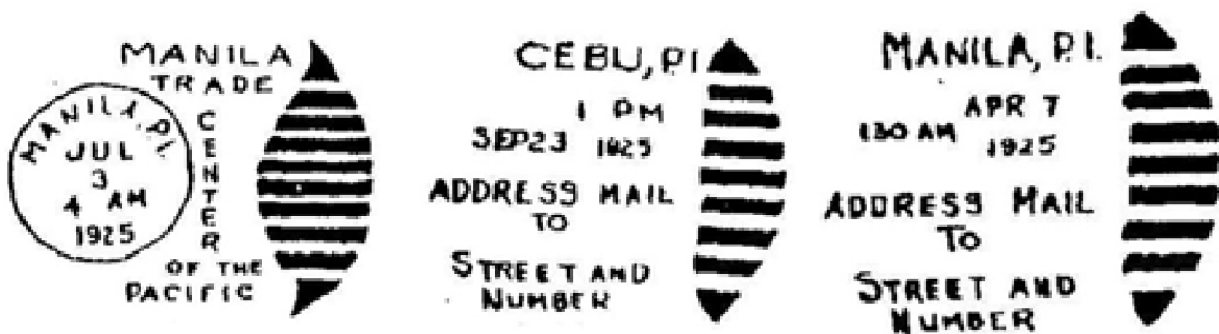

Another type of handstamp Flag slogan cancel was used by the Manila Post Office. It was used on "May 19, 1934", on the occasion of the closing of the Tenth Far Eastern Championship Games, in Manila. Superimposed on a flag of five wavy lines, is the slogan bearing only the letters "PAFF", arranged like musical notes. This slogan cancel was applied in purple, but unlike the Flag machine slogan cancels, it has an entirely different format.

Use of the Flag machine cancels and/or slogan cancellations was continued by the Manila Post Office for almost ten years. The latest was in 1926. Then, it was discontinued. All in all, at least 30 different kinds of the Flag types were used in the Philippines.

Straightline Types with Grids

During the last three years of use of the Flag slogan cancels, it's interesting to observe that the Manila Post Office utilized at the same time, at least three different Straightline slogan cancels. They were applied by handstamp but of steel die. Besides this, each has a grid. It's a "barrel-killer". Each "barrel-killer" has a different type. The largest is with five heavy horizontal bars. The height of this stamp "killer" is 3,7 centimeters. Earliest date seen of this Straight-line slogan cancel was "Oct. 11, 1924" with the slogan reading: "REGISTER-INSURE-ALL-VALUABLE-MAIL", all in caps, sans serif in five lines. It has a circular town mark Cebu Post Office with a single frame, used as well in Manila

The second type of this Straight-line slogan cancel was also used by the Manila Post Office. Its slogan reads: "MANILA - TRADE CENTER - OF THE - PACIFIC", all in caps, sans serif in five lines. Earliest date seen was "July 3, 1925". Its "barrel-killer" however, is smaller than the first, but it's townmark is exactly the same as the former.

Third type of the Straight-line slogan cancels bears the wording: "MANILA, P. I. - (Date) - (Time) - (Year) - ADDRESS MAIL - TO - STREET AND - NUMBER", all in caps, sans serifs in eight lines. Earliest date seen was "April 7, 1925". It has also a "barrel-killer", but it's the smallest of the three types of grids. As it appears, the third type is a combined town mark and slogan cancel. And while it was used by the Manila Post Office, it was used likewise by the Cebu Post Office, but in this case, "CEBU, P.I." is indicated as point of origin. Earliest date seen of this as used in Cebu was "Sep. 23, 1925" and the latest date seen was "Feb. 23, 1933"

Universal Types

The first Universal machines slogan cancel was introduced in the Philippines in 1930. It bears the legend: "MANILA -TRADE CENTER -OF THE -PACIFIC" all in capital letters sans serifs in four lines. According to the Bureau of Posts, this machine slogan cancel was used by the Manila Post Office, the first day of use being: "July 12, 1930". Boxed in a rectangle, its size is 1,9 x 5,8 cm, the rectangle measuring 1,9 x 3,3 cm, plus seven straight lines on the right, each 2,5 cm long and open at the end.

It has a steel dial commonly known as the "Universal". Main characteristic of this dial is: the name of town or city (Manila) is shown on top, the date in the center. Any name of the state or country (P. I. or Philippines) is indicated at the bottom inside the dial. This is distinguished from the dial of the Doremus machine slogan cancels mentioned before. The dial of the Doremus shows the town or city (Manila) and the state or country (P. I.) on top but the year at the bottom in the dial. This type is known as the "International".

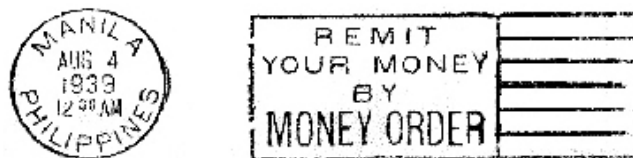

Since the introduction of the Universal machine slogan cancels in the Philippines, it's interesting to observe at least 36 different types were utilized. Twenty-seven of them were used by the Manila Post Office, five by the Cebu Post Office, and one by the U.S. Navy in Cavite. Out of the 27 different types used by the Manila Post Office, however, two of them were plain boxed slogan cancels, i.e., without the usual seven straight lines used as "Killers".

Likewise it's interesting to observe, some of these slogan cancels as used by the Manila Post Office, were used as "Backstamps". This was especially true in the late 30's. True enough, their use as such was also witnessed until outbreak of the Pacific War. Then too, since the Republic up to the present, some postal slogans are being used as backstamps. Obviously, it's an established postal precedent.

When the Japanese Occupation came, however, their use was discarded except for one. It was the slogan cancel bearing the legend: "POST -YOUR MAIL -EARLY" in caps in three lines. It's First day use during Occupation was "March 4, 1942". It was an occasion of the First Day Sale of the first provisional issues of the Philippines (2c and 16c postage stamps and 2c postal card), released during the early month of the Occupation. Use of its slogan cancel lasted for three years until the last days of the Japanese Occupation of Manila. Latest date seen was "Feb. 3, 1945", the same day the U. S. Armed Forces liberated Manila.

Among the Universal machine slogan cancels used in the Philippines, the slogan cancel "POST - YOUR MAIL - EARLY" as described above, is the most historical. Its historical significance lies in the fact not that it was used for 14 consecutive years (1931 - 1945) and bears the longest record of service, but it saw postal service in three different regimes of the Philippines, namely: the American Administration, the Commonwealth transition and the Japanese Occupation. Considering this fact in the postal history of the Philippines, therefore it deserves a niche to remember by.

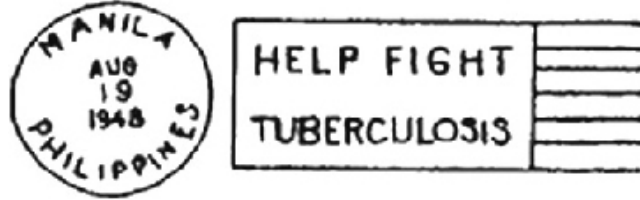

Type of Machine Dials

In discussing the machine slogan cancels of the Universal type, mention of the dials of these cancels should also be made. Dials of the Universal type used in 1930 to 1945 have two types. So with the box enclosing the slogans. The dial used in 1939 bears the inscription "MANILA" on top and "PHILIPPINES" at the bottom in the dial. The type used prior and after 1939 has "MANILA" on top but "P. I." instead of "PHILIPPINES" at the bottom. As to the box of the slogans, at least each of them has two types: one without any break in the frame and the other with two breaks on the vertical frame on the left. In the addition to this, there are also some varieties in the size of the box. Also in the types of the letters of the slogans.

Boxed Types--Handstamps

Mostly used since the establishment of the Republic are the slogan cancels of the Boxed type. Most of them are handstamps. Since the liberation up to the present writing, more than 500 postal slogans have been used by the Bureau of Posts most of them were of the Boxed type.

Single-Letter Slogan Cancel

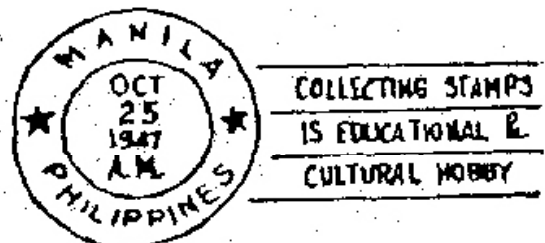

The honor of having used the first slogan cancel of the Philippines after the Second World War, goes to the Post Office of Fabrica, Negros Occidental. It was used early in 1946 and applied by handstamp in black. It's unboxed. But unlike the standard slogan cancellations, it has no inscription at all, except a big letter "V", measuring 2 x 2,2 cm. The letter "V" in this instance, stands for "Victory".

It's interesting to note, similar slogan cancels were used in the United States, England and Canada during the hectic years of World War II. Prominently displayed in the center, the letter "V" in the subject slogan cancel, is supported by five straight horizontal lines on both sides of the letter. Earliest date seen of this forerunner of the postwar slogan cancels of the Philippines was "Mar. 25, 1946".

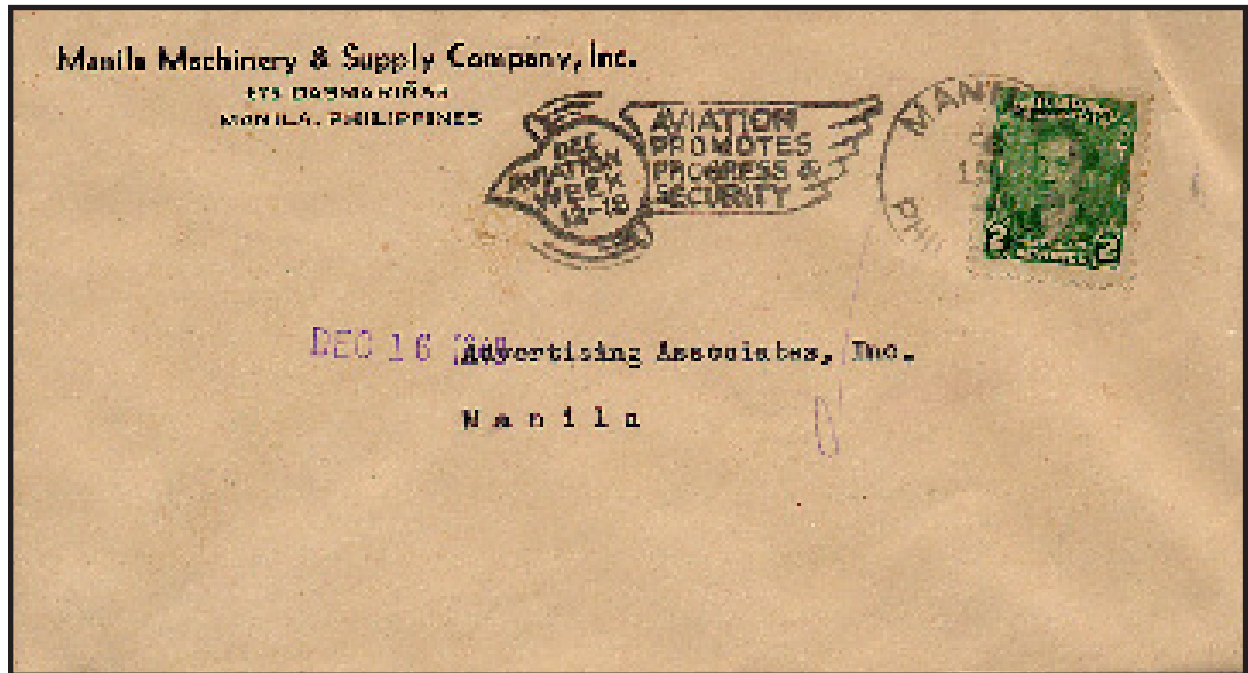

Boxed Type-Republic

Starting with the first one used by the Manila Post Office on October 28, 1946, applied as handstamp in black and purple and used as backstamp on domestic air mail, several hundred have been used till today. In 1947 and 1948 slogan cancels with philatelic legends were used. Slogan cancels to mark the birth of new cities used for one day were used as well.

Fancy Types

In no history of philatelic Philippines, Fancy slogan cancels have been extensively used. Fancy as they are and conveying the logic of the slogans at random, they easily arrest one's attention and prove interest. Doubly interesting, the Bureau of Posts has been using these Fancy slogan cancels, not only on occasions of national significance but also for some events of international scope worthy of commemorating. Here are some early examples:

Other slogans used by the Post Office, without cds, can be found in Part II of this catalogue.

THE CATALOGUE OF PHILIPPINE POSTAL SLOGANS

is arranged in chronological order of earliest date seen, starting May 17, 1904. Dates of First Day Use as indicated are as per official records of the Bureau of Post. Those indicated with * are earliest dates seen, no official records available.

The numbers before the Postal Slogan Cancels are my own, **BPS-** (Becker Postal Slogan), but if known, Pablo Esperidions numbers are as well mentioned **ES-** (Esperidion), which are taken from the A.F.F. Yearbook of 1955 and the Philippine Journal of Philately, March-April 1959 edition.

All slogans are depicted in original size as used on the covers I have. Slogan cancels used in different Provinces, may have slightly different sizes, since they are mostly hand-made rubber-cachets. If more than one cachet was produced, it can be that there are differences in size.

The following abbreviations have been used to identify the different types of slogan cancels:

- DMC** - Doremus Machine Cancel
- AMC** - American Machine Cancel (Dial with year indicated at bottom)
- UMC** - Universal Machine Cancel (Dial with country indicated at bottom)
- BHC** - Boxed Handstamp Cancel
- FHC** - Fancy Handstamp Cancel
- SHC** - Straightlined Handstamp Cancel
- CHCC** - Circular Handstamp Combined Cancel
- BMC** - Boxed Machine Cancel
- FMC** - Fancy Machine Cancel

Part II STRAIGHT LINE SLOGANS

The Philippine Post Office issued slogans with straight lines only, straight lines boxed type etc. but all without cds, (Circular Date Stamp), and slogans to promote the Postal Savings Bank of the Philippines, starting 1927 and later again during the Japanese occupation.

The slogans were not used as postmarks to cancel the stamps but usually well away from the stamps and regular cancellation. In Manila they were in Tagalog or English, and two were in both languages, whilst in the provinces a number of local languages or dialects were used. The earliest reported date of use is June 30, 1927.

The definitive study of Philippine Postal Slogans in general was made by Pablo M. Esperidion and published in the *Philippine Journal of Philately* in Sept-Oct 1950 and a second, more comprehensive study was published in the same Journal in Sept-Oct. 1955. Don Pablo listed seventeen thrift slogans. Twenty-two years later, Eugene A. Garrett published an article in the *Philippine Philatelic News*, Vol 3, No. 1 (Jan-Feb-Mar 1977) in which he updated the list with the addition of a further five slogans, and followed this some fifteen years later with an article and updates in the *Philippine Philatelic Journal*, Vol. XIV and XV (3rd and 4th quarters 1992 and 3rd quarter 1993) in which the number of different known slogans had risen to 38.

Gene numbered the then known slogans 1 - 38, and these numbers are included in the following list, but having had quite a job discovering whether the recently reported slogans were already known, I decided to list all the known slogans in alphabetical order. It does of course necessitate the first letter of the slogan being legible, but that possible problem overcome, it does enable a rapid means of checking new finds.

As would be expected with handstamped mail, the clarity and completeness of some of the slogans is variable, and it may be, that two copies of an identical slogan may have been deciphered differently, but every effort has been made to avoid errors.

In addition to the straight line types in different native dialects, boxed type slogans and cachets are also shown in this Part II of the catalogue.

**PAPAGSANTUNGAN YO DINO -
PID YU ONO BANCO POSTAL**

Legend in Tagalog, translation:

Sixteen years after the inauguration of the 1927-1928 series of Thrift Slogans, another series from the Bureau of Posts appeared in the midst of the Japanese Occupation. The new series was applied only in Manila, commencing on August 3, 1943 and was used for about six months; the latest reported date of use is February 16, 1944. The slogans were applied usually in purple and less commonly in black.

The new series was inspired by none other than Pablo M. Esperidion. Don Pablo wrote an open letter to the Bureau of Communications which was published in the "Public Pulse" letters-to-the-Editor column of the Manila Tribune on June 23, 1943, suggesting a revival of the Thrift slogans. Six weeks later, the new slogans had their first day at the Manila Post Office. Three different slogans were used, all in English, and one (ES-90) was a proverb from the writings of Benjamin Franklin - a fact which surely must have escaped the attention of the Japanese Military Administration.

Whereas the 1927-1928 series have been observed only on commercial and private non-philatelic covers, the Japanese Occupation slogans are found on commercial private and official-mail covers as well as on philatelic "favor" covers. Whether or not they are "true" postal markings, the Thrift Slogans are a fascinating addition to any collection of Philippine covers.

Part V
G. I. POSTAL SLOGANS

Introduction by Jesus Cacho, former President AFF

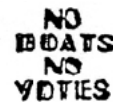

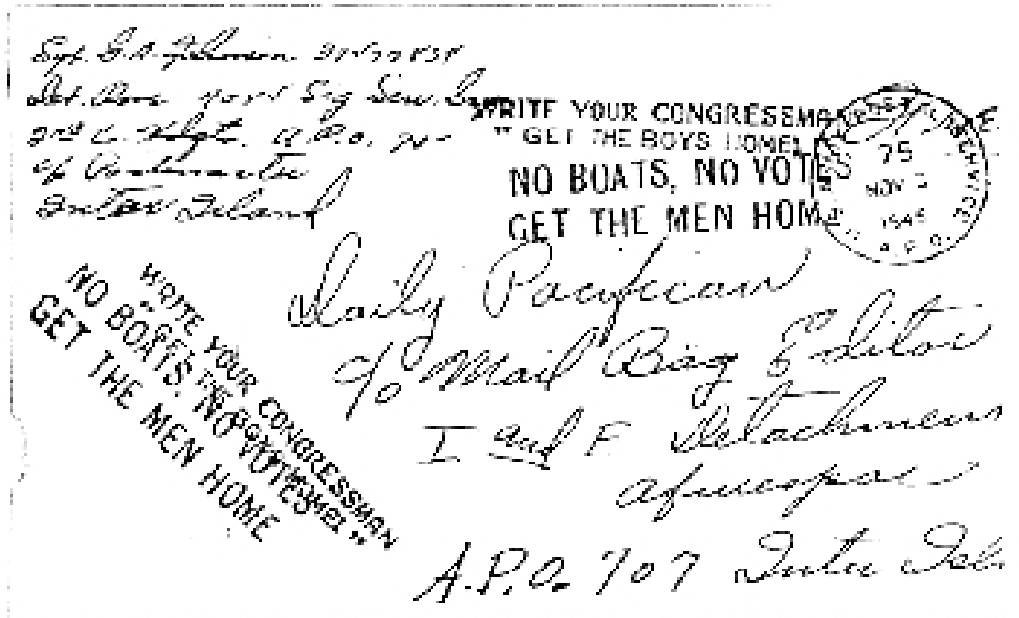

V-J Day was the end of World War II. It brought great joy to the free world. But not to many GI's, especially those stationed in the Philippines. At the termination of the war, GIs who saw action and had been stationed for quite a long time in this country, began drumming to go home, back to old U.S.A.

And who doesn't want to go home after all the blood and thunder one has experienced in different theaters of war operations?..... The GIs were right. There's no place like home!

But the glamor of the GIs seemed to be unheeded by the military high command. The reason advanced, there were no sufficient available ships to transport the soldiers back to the United States. And so, GIs long overdue to go home, had to stand by at replacement camps. Their standby was indefinite subject to available bottoms. But the GIs didn't like this. They wanted to go home, and quick! But whether they liked it or not, there was the post-war military red-tape.

Because of this military red-tape, the GIs enlisted the use of postal slogans. Used on the mails posted at different Army Post Offices or APOs, the postal slogans vociferous drummed the demand of the GIs. And here started the beginning of the GIs postal slogans in war-torn Philippines.

Sparkling with wit and humor, the GIs postal slogans were used from 1945 to January 1946. This was especially observed during the election year - the election for president in the U.S.A. - Truman vs. Dewey. Thus taking advantage of the election year, most of the slogans carried the legends as illustrated on the next pages.

The earliest date seen of these slogans was early in October 1945. The latest was in January 1946. Most of them were straight-lined types, but some were boxed and some were fancy. They were all applied by handstamped, mostly in black, but some in purple, in blue or red.

Pricelist - Volume I – Part I only

The prices indicated for the slogan cancels and all other postally used special cachets and cancels are only a guide.

Depending upon the stamp(s) used, the physical condition of the item, the readability of the cancel (very fine, fine, acceptable, etc..) and the time of issue are the most important factors for the value.

The prices are indicated in U.S. \$, to make it easy and international to use.

This list will be adapted every two years starting with this first edition of November 2008
