F 129938

Complete Pane of 25 stamps
Inverted "S" in "Peso" at Position 4

Ten Sheets Recorded

Blue and black vertical color registration lines in selvedge of the pane indicate the alignment of the sheet for this bicolored issue, as it was passed through for inking twice, once for printing the blue frame and a second time to print the black central vignette. The separation of the lines in this pane is reflected in the shift of the black vignette to the left and down, cutting into the outside blue frame. The blue and black letter "C" found at the bottom left selvedge of the pane indicate the plate was chromium plated.
