As so few copies of this stamp are known, it is believed the Two Reales Blue was overprinted in error. The stamp was not listed in J.M. Bartels seminal 1904 book, "Postage Stamps of the Philippines," as Bartels had never seen a genuine example of the stamp. There are no recorded multiples of this stamps. There are less than **35 Examples Recorded**, including the **Block of 20** on the following page - **The Only Recorded Multiple**.
